DELTA DENTAL®

Covered Under Two Dental Plans?

DUAL COVERAGE

"Dual coverage" refers to when your dental treatment is covered by more than one dental benefits plan. This doesn't mean your coverage is doubled, but by coordinating your benefits, we may be able to reduce your out-of-pocket expenses.

Delta Dental of Kansas works with the other insurance company (i.e. Aetna, Cigna, Blue Cross Blue Shield, another Delta Dental) to coordinate your benefits (COB). COB is the process insurance companies follow to determine how much each dental plan you are covered by will pay.

HOW DOES DUAL COVERAGE WORK?

One plan will pay your claims first (primary plan) and the secondary plan benefits will apply to the remaining balance. The plan that covers you as an enrollee (or the policyholder) is the primary plan and the plan covering you as a dependent would be the secondary plan.

For example, if your dentist charges $100 for a filling and your primary insurance covers fillings at 90 percent, the primary plan would pay the dentist $90. Typically, you'd receive a bill for the remaining $10, but your secondary insurance covers fillings at 80 percent of the cost. The secondary insurance would pay 80 percent, or $80, but because the remaining balance is only $10, the secondary plan would only pay $10 leaving you with no financial responsibility. (example may differ if deductible applies.)

For children, if the child is still living with both biological parents, the primary insurance is determined by the coverage of the parent whose birthday (month and day) comes first. In situations involving separated or divorced parents, this rule may be superseded by a court order that authorizes the responsible party for the child or where one parent has primary custody.

WHAT DO WE NEED FROM YOU?

If you are receiving this form, your dental plan contains a Coordination of Benefits (COB) provision. In order for us to coordinate your benefits with the other dental insurance company, we need you to provide additional information.
